

# Collapsible Dam

***"This is a must for all manufactured barrier free curbless showers!"***

Rick Millard of Comfort Designs Bathware a Division of Praxis Industries

U.S. Patent # 7,055,188

Control water spillage, help prevent falls and reduce facility liability and maintenance. New generation product developed specifically for all types of barrier free curbless shower units, which require water control. White in color, tall 1 inch height, collapses easily by foot or wheelchair. Durable and easy to clean. Strong self adhesive bottom eliminates messy adhesives. Optional end caps available for showers with radius end walls assisting the curtain and providing a finished look. Order today!
